FOR

FALL OF 1896

THE UNIVERSAL

Horticultural Establishment.

W. A. MANDA,

SOUTH ORANGE, N. J.

### Advice to Customers.

Please send in your orders early.

PLEASE induce your friends to send their orders with yours.

PLEASE give me ample time to fill your order carefully. PLEASE add enough to cover postage if ordered by mail. PLEASE write your name and address plainly. PLEASE give mode of shipment; express is recom-

mended.

PLEASE say if I can send other kinds for any out of stock.

PLEASE register all letters containing money.

WHAT I DO-Everything in my power to satisfy customers

WHAT I DO-Give my customers the value of their money

What I no—Offer best quality at lowest living prices.
What I no—Guarantee safe arrival of goods by express.

WHAT I DO-Rectify all just claims if made at once.

I no not no-Guarantee crops. See "Dis-claimer." WHAT I DO

WHAT I DO NOT DO-Offer anything I have no faith in. WHAT I DO NOT DO-Offer \$2 for \$1, because I could not do it honestly.

WHAT I DO NOT DO-Substitute, unless given the privilege.

WHAT I DO NOT DO-Guarantee goods sent by mail or freight.

WHAT I DO NOT DO-Take responsibility for money sent in unregistered letters.

WHAT I DO NOT DO-Not responsible for failure or shortage of crops, stock being exhausted when order is filled, or any accidents or delays in delivery beyond my control, and I accept orders on those conditions only.

### WHILE I EXERCISE THE GREATEST CARE

To have all seeds, plants, and bulbs pure and reliable I do not give any warranty, express or implied. If the purchaser does not accept them on these terms and conditions, they must be returned at once, and the money that has been paid for the same will be refunded

### TERMS OF PAYMENT.

Accounts are due quarterly, irrespective of date of purchase: January 1st, April 1st, July 1st, and October ist.

Parties which I have not had the pleasure of doing business with previously, will please send remittance or good reference.

Five per cent. discount allowed on all orders with

cash.

### To the Florists of America.

With this, my fourth Wholesale Catalogue, I thank my numerous customers for their patronage, and again inform them that I have severed all active connection with the incorporated stock company of Pitcher & Manda, and have established myself in South Orange, N. J. I am well equipped to furnish you anything in the Horticultural line, Seeds, Bulbs or Plants. Catalogue I have only enumerated such kinds as are mostly used by the trade, but my General Catalogue will be sent to any one applying for same, where you will find the most complete list of everything pertaining to Horticulture, and from which prices I allow liberal discount to the trade. As in former years, I will do my best to give you satisfaction, and retain the good will of the trade that I have always been favored with.

All correspondence, orders, etc., intended for me, please address to

Yours truly,

W. A. MANDA, South Orange, N. J.

### DISCOUNTS.

Prices in this Catalogue are net, except when cash is sent with the order, when I allow 5 per cent. discount.

Anything not found in this list, and ordered from my General Retail Catalogue, the Pocket Garden Directory of Everything Pertaining to Horticulture, which will be sent on application, I will allow the following discounts:

Plants and Bulbs, in collections, 20 per cent.

Trees, Shrubs and Vines, singly, 25 per cent.

Trees, Shrubs and Vines, by dozen or collection, 15 per cent.

Tools and Requisites, 10 per cent.

Books, Periodicals, etc., 10 per cent.

Special prices given on any article, quantity or quality. Read Terms of Payment before ordering.

### NEW HYBRID WICHURIANA ROSES

It is for the first time that hybrids of this very useful hardy rose are offered. They have been a great surprise

to me, and to every one who has seen them.

They keep the same trailing habit, and the same fine green foliage, lasting well into January, and the same freedom of growth, some of them having made from a small cutting plant a shoot 18 feet 6 inches last season, and are therefore well adapted for any place, either to cover bare spaces on the ground, or for trailing purposes, for which they are invaluable.

As to flowers, they produce innumerable quantities of well formed blooms, lasting a long time in perfection, and flowering with such a freeness that no rose can equal it, so that a two or three year old plant can be fairly counted to produce a thousand or more flowers, and thus be a sight that can hardly be described.

As to hardiness they have stood the severe winter of

As to hardiness they have stood the severe winter of 1895-96 on a very exposed and bleak situation, without any covering whatever, and have flowered beautifully the following spring. They are not particular to any soil, but will grow even on the poorest gravelly and sandy banks, for which they are well adapted, not only for these purposes, but also as a pot-plant, either to force early in the spring or let it come naturally.

The variety named "Manda's Triumph" is well

The variety named "Manda's Triumph" is well adapted for pot culture, as it is literally covered with a fine double white flower for several weeks. Taking them all in all, the set of four varieties represents a collection that should be in every garden, and which surely will prove even more valuable than the celebrated

"Crimson Rambler."

#### Manda's Triumph.

This is a grand hybrid of free growth, with fine foliage and clusters of from twelve to eighteen flowers on even a small side shoot, literally covering the plant with its perfectly formed double white flowers, nearly two inches across, beautifully imbricated—a valuable sort, either for cut flowers or pot-plants. It is also very sweet scented—a valuable variety for florists.

#### Universal Favorite.

A free grower, producing long branching shoots, with bright shiny foliage in abundance, and soft light pink double flowers, two inches in diameter, strongly perfumed.

#### South Orange Perfection.

This is a gem, with free growth, close to the ground, and multitudes of the most perfectly formed double flowers, about one and a half inches in diameter, soft blush pink at the tips, changing to white.

#### Pink Roamer.

This is without question a hybrid between the Sweetbrier, and carries these characteristics in bloom, while the growth, which is very rampant, and the luxurious foliage, partake more of the Wichuriana. The single flowers, which are produced in close heads, are nearly two inches in diameter, bright rich pink, with almost a white centre, which lightens up the orange red stamens, producing an effect which, combined with the fragrance, makes it one of the most valuable roses in cultivation.

### PRICES.

Plants to be delivered about the 1st of March, 1897. 2 inch pot-plants, \$3.50 per doz., \$25.00 per hundred, \$225.00 per thousand.

Extra strong 3 inch pot-plants, \$4.50 per dozen,

\$35.00 per hundred.

### PRESS COMMENTS.

From the American Florist, June 13, 1806—"W. A. Manda, South Orange, N. J., exhibited a most remarkable group of new roses, seedlings of Rosa Wichuriana, in foliage and habit exactly like Wichuriana, but the flowers of one are double white, another double pink, another shell pink, and one single pink. They are all beautiful acquisitions, lovely colors, and very fragrant. They created quite a sensation, and the Committee of Awards was requested to visit Mr. Manda and report on these beautiful novelties."

Florists' Exchange, June 13, 1896—"Mr. Manda had on exhibition some very interesting hybrids of Rosa Wichuriana, all showing double flowers, one especially being worthy of note—a cross between one of the hybrid perpetuals and the type, the true parentage not being known. The plant shows the floriferousness and habit of growth of R. Wichuriana, being even more vigorous. The flowers are white and are very symmetrical. Mr. Manda said, from a small cutting put out last July, on one branch he counted over 150 flowers, and the growth had now attained the length of eighteen feet six inches. Other hybrids shown had been fertilized by Noisette pollen, the result being some very pretty shades of color ranging from pink to white. Mr. Manda has also been crossing the Memorial rose with Meteor, Mme. Hosts, an I American Beauty, and the Sweetbrier, from which he hopes to obtain good results. The thanks of the club were tendered to Mr. Manda for his excellent exhibit."

dered to Mr. Manda for his excellent exhibit."

The Florists' Exchange, June 27—"W. A. Manda was awarded honorable mention for a very promising hybrid Rosa Wichuriana." "W. A. Manda, South Orange, N. J., had an interesting display of orchids and herbaceous flowers, and received from the committee of the Gardeners' Society a certificate for his new double hybrid of Rosa Wichuriana, previously mentioned in these columns, and which he has named 'Manda's Triumph.""

American Gardening, June 27—"New Rose, 'Manda's Triumph,' New York Gardeners' Society's certificate of merit to W. A. Manda, South Orange, N. J."

American Florist, June 27—"Brought out several very nice exhibits, among which that of W. A. Manda was particularly prominent. A hybrid of Rosa Wichuriana with double white flowers and dwarf habit gave promise of becoming a valuable nowers and dwarr nabit gave promise of becoming a valuable addition to its class.
"To W. A. Manda (New York Gardeners' Society certificate), for new rose 'Manda's Triumph,' a hybrid from Wichuriana and an unknown H. P."
"Again shown and greatly admired—W. A. Manda's Wichuriana.

CAREFULL

٥

Ш

"Again shown and greatly admired—W. A. Manda's Wichuriana Hybrid, which received the award of honorable mention."

American Gardening, June 27—"Special mention must be accorded to W. A. Manda for his most interesting new hybrid rose (R. Wichuriana X hybrid perpetual variety). This 'Triumph,' as it has been named, was described on page 374, issue of June 13. It is satisfactory to learn that the Gardeners' Society recognized its interest and made a suitable reward."

American Florist, July 18, 1896—"The New York Florists' Club has, through its Committee on Awards, given a silver medal and three certificates of merit to W. A. Manda for new roses."

The Florists' Exchange, July 18—"The New York Florists' Club's Committee of Awards has recommended that the club's silver medal be awarded to W. A. Manda, South Orange, N. J., for his double hybrid of Rosa Wichuriana."

media be awarded to W. A. Mainda, Summanda, "The Committee of Awards of the New York Florists' Club visited the establishment of W. A. Manda, at South Orange, N. J., on June 15, and examined his new roses. In their report of same they recommend certificates of merit to seedling No. 2, 'a very pretty double rose, color a porcelain pink, two inches in diameter, of sweet fragrance, much like the old Sweetbrier, extremely strong grower and hardy,' to No. 3, 'a rosy pink, with a large decided white eye, single bloom, two inches in diameter, and exceedingly strong grower and hardy,' and to No. 5, 'a beautiful double little rose, one inch in diameter, of a lovely blush pink color, a very strong grower and hardy,' and to No. 5, 'a beautiful double little rose, one inch in diameter, of a lovely blush pink color, a very strong grower and hardy.'

"They recommend a silver medal to No. 8, 'the gem of the collection,' which might be called a double Rosa Wichuriana, color a pure white, and intensely double, very sweet fragrance, the foliage a deep shining green; of great substance; the growth is exceedingly strong and perfectly hardy.

"The committee consists of Eugene Dailledouze, chairman; Patrick O'Mara and Peter MacDonald."

### AWARDS.

Manda's Triumph—Silver medal from the New York Florists' Club; Certificate from the New York Gardeners' Society; Honorable mention from Massachusetts Horticultural Society

Universal Favorite—Certificate of Merit from the New York Florists' Club.

Pink Roamer-Certificate of Merit from the New York Florists' Club.

South Orange Perfection-Certificate of Merit from the New York Florists' Club.

### BULBS.

### AMERICAN CULTURE.

In a large country like this, stretching from ocean to ocean, and embracing all the climates from perpetual snows to perpetual summers, of late years many bulbs, plants and seeds have not only been grown for home culture, but have been exported also, of which I offer the most important kinds below.

| Special Bohemian Valley   | I   | 2 00   | 28         | 00   |

### AUSTRALIA.

From Australia I import Palm Seeds, such as Kentias, some Arecas, etc., Zamias, Tree Ferns, and such plants which are generally offered upon arrival, a special list of which will be sent to any one desiring the same.

### FRANCE.

I was fortunate this year in making the largest contract in the history of Bulbs, especially so in French stock, which this year will be very scarce on account of the excessive drouth in that section, no rain having fallen there for a period of eight months, which will make the crop very short; but the quality will be much better, therefore giving better results when forced. Early orders solicited for the following:

(Prices subject to change.)

### Miniature Hyacinths or Dutch Romans.

Single and double, all colors.....

For bedding or forcing, these Hyacinths will be found equally as good as the more expensive named sorts.

### CHOICE FLORISTS' FLOWER SEEDS.

FOR IMMEDIATE SOWING.

From my personal experience I know the great importance of purity and high grade of stock. Therefore, I make it a special feature to handle only the very best strains. Purchasers may have every confidence in the quality of the seed I offer, and in ordering should order the best quality.

### Pansies, Show.

Below you will find a list of the very finest of show pansies of incomparable size, beauty and luxuriance,

especially my finest mixture.

In this mixture I have spared no pains in securing the finest strains and mixing carefully, only using those which I knew would give the best results. For size, coloring and abundance of flowers, this strain has no equal. They do best in summer in a cool, moist situation. Highly recommended for indoor culture in the winter.

### Pansies, Bedding.

These differ from the above in their flowers being smaller, but they are produced in greater profusion. They form bushy plants covered with bloom, and are better adapted for bedding, as the color of the flowers is mostly solid in this class, and they are therefore better able to stand the sun than the fancy forms of the show pansies.

### Cyclamen.

These are among the most beautiful winter and spring flowering plants for the greenhouse.

Not only are the flowers very beautiful, but the leaves are very ornamental. The flowers run in shades from pure white to dark red.

### Cineraria.

One of the most beautiful spring flowering plants for greenhouse or conservatory decoration.

When well grown, the flowers measure about two inches across, and cover the plant with a mass of bloom. Sow in late summer, in a light compost. When large enough, transplant in small pots, and shift as required. They do best when kept in a cool place, and will do well in a frame protected from frost.

### Calceolaria.

Beautiful plants for greenhouse and conservatory decoration.

The curious pocket-shaped flowers are borne in the greatest profusion during the spring and summer. They vary greatly in color; some are self-colored, while others are beautifully spotted and blotched. Sow in late summer in shallow pans; transplant in thumb pots, and shift as required. They like a cool situation, and will do well in a frame protected from frost.

### Primula (Primrose).

One of the finest winter flowering greenhouse plants. The list below contains only the finest strains procured from the greatest specialist in Europe. Sow in early summer in shallow boxes or pans. When large enough, plant in small pots, and shift as required. They enjoy rather a cool position, and will do well in a frame protected from frost.

### $\textbf{Myosotis} \ (\textbf{Forget-me-not})\textbf{.}$

This beautiful little plant is too well known to need any description. It does best in a cool, moist place, and can be used for spring bedding or winter flowering. The flowers when cut and placed in water will grow just as well as if on the plant.

### VEGETABLE SEEDS.

I grow large quantities of all the leading vegetable Seeds, and will be pleased to quote low prices on application.

### PALM SEEDS.

I am ready to book orders for Palm Seeds, and deliver same as soon as received from the collector. It is of great importance that Palm Seed should be fresh, otherwise it will not germinate, and, on that account, I never keep any on hand.

### GRASS SEED.

I can furnish all the different Grass and Clover Seeds at current market prices, which I will give on application. I wish to draw special attention to

Manda's Universal Lawn Seed Mixture, which is specially prepared, and gives the best results.

Central Park Lawn Grass Mixture, per quart, 10c.; per bushel, \$2.50.

Manda's Universal Lawn Seed Mixture, per quart, 15c.; per bushel, \$3.50.

### FLOWERING PLANTS.

This useful class comprises both dwarf and climbing varieties. Only such are listed as have been found to be the best and most popular.

For other varieties see general catalogue.

### Azaleas.

Strictly first-class stock in every respect, well set in bud, and the very best varieties, such as A. Borsig, Mme. Van der Cruyssen, Sigismund Rucker, Bernard Andre Alba, Deutsche Pearl, Imperatrice des Indes, Souv. de Prince Albert, Dr. de Moor, Emperor de Bresil, Concarde d'Orange, Simon Mardner, and Vervæneana.

Other flowering plants, size and price on application.

### ORCHIDS.

Beautiful beyond description, keeping well long after being cut, and of easy culture, have brought the Orchid into great demand as a cut flower, and no florist should be without them. Not only are they sold to the customer, but they act as a great advertisement, and a two-dollar Orchid in flower will attract more attention than anything you can have in the store or greenhouse. The prices of this fine class of plants vary according to size. Below are listed the best varieties for florists' use.

I have a good stock of larger plants, prices of which I will be pleased to quote on application.

### CYCADS.

Cycas revoluta. Fine plants from \$2.00 to \$5.00 each. Zamia integrifolia " 1.50 to 3.00 "

### HARDY HERBACEOUS PERENNIALS

With a good assortment of Hardy Perennials, flowers can be had from early spring until frost cuts down all vegetation. For florists this class of plants is invaluable. Once planted they need very little care. I make a specialty of Hardy Herbaceous Plants, and devote a large tract of land to their culture. A visit to the nursery during summer will surely be of interest.

### TREES, SHRUBS AND VINES,

Both ornamental and fruit, are grown largely by me, and I would be pleased to quote special prices on any quantity, size or variety you may need in your trade. I can supply you fine stock from 8c. upwards, and would be pleased to receive a list of your wants.

#### CARNATIONS.

I grow all the leading kinds of Carnations, and can furnish strong field-grown plants at very reasonable prices, in the very finest varieties, such as Wm. Scott, Lizzie McGowan, Storm King, Helen Keller, Portia, and all others. Price on application.

### VIOLETS.

Florists who have failed to grow their violets are advised to send me the number of plants they need, and I will quote low prices for clean, healthy stock.

**Do not** be misled because you see the firm name of Pitcher & Manda unchanged. Same firm, prior to my retirement, had been incorporated under that name, and I cannot prevent them from using it. You will find the *original* and *only*

### Universal Horticultural Establishment, SOUTH ORANGE, N. J.,

where please address all letters and orders intended for me, as I am not in any way connected with the firm that still uses my name.

SEND ME A TRIAL ORDER.

### NOVELTIES AND SPECIALTIES.

### Lilium Longiflorum Albo-Marginatum (The Chotaro Lily).

This is the greatest novelty in the bulb line. The flowers are as large as the well known Lilium Longi-florum, while the luxuriant foliage has a broad margin of silvery white, which combines well with the white flowers, giving the plant a unique appearance. Stock Order early. Per doz., \$1.75; per 100, \$12. limited.

### Adiantum Capillus-Veneris Imbricatum (The Hardy Farleyense).

This is a grand acquisition to the Ferns. In general appearance it rivals the famous Adiantum Farleyense, In general besides being a free grower and of much hardier constitution, and on that account well adapted to general culture, and especially for fern dishes. Should be grown by every one. Received three first-class certificates in Boston, Lenox and New York. Order early.

### Nice plants in 2-inch pots, \$1.25 per 10; \$10 per 100.

### Spiræa astilboides floribunda.

This grand new plant is as useful for forcing as for herbaceous border. It is in the same relation to S. astilboides as is S. japonica floribunda to the common S. japonica. The plant is compact, furnished with numerous spikes closely set with pure white flowers. A plant I can strongly recommend. Per doz., \$1.75; per 100, \$12.

### Coreopsis lanceolata (Harvest Moon).

A grand improvement on the well-known species, and one that should be in every collection of Hardy Plants. The habit and flowers are much larger and stronger. Well adapted for cutting purposes. Per 10, \$1.25; per 100, \$8.

### PURE SHEEP MANURE.

I am greatly pleased to say that I have secured a large quantity of the very best sheep manure, perfectly pure and unadulterated, free from all straw or litter of any kind, which is generally found in most of the other grades.

I can safely say that it is the finest quality offered in the market. There is nothing can equal this manure for greenhouse purposes, such as top dressing roses, carnations, chrysanthemums, or any other plants that are

strong feeders.

And there is nothing better for mixing through potting soil or for making liquid.

It is also the finest manure for top dressing lawns or

for the manuring of fields or gardens.

In all respects it is par excellence. For top dressing greenhouse plants, use equal proportions of manure and good loam. For mixing through potting soil, use one part manure to nine parts loam. For making good liquid, use about ten pounds to the barrel. For lawns, fields or gardens, use about one pound to ten square feet, 25 lb. bag, 60 cents; 100 lb. or two tons to the acre. bag, \$2.00; per ton, \$28.
